Last year's abundantly wet conditions had us believing that all of our plants were going to float away, but this year it has been considerably warmer and drier, especially in central and southern California. While these dry hot spells of winter can be some of the loveliest days of the year, they also serve to remind us that we live in a mediterranean climate and should be gardening with plants best suited to our climate. To this end, every year we have added plants that we feel are appropriate to the "California Garden". Not all of these plants are from mediterranean climates and some may require a little supplemental irrigation, but they all perform well in our cool moist winters and warm dry summers. This year we have greatly expanded our succulent offerings and continue to work with individuals, other nurseries, and botanic gardens to introduce exciting new succulents and other plants that grow well in our climate. We have also added more aquatic plants for those small oases of water that can make a garden so much more soothing. These new plants are listed in the back of our catalog on page 50. Following our new plant list are lists of plants native to California and other mediterranean climate regions. More information on our plants, often with pictures, is available on our website at [www.smgrowers.com](http://www.smgrowers.com). The staff of San Marcos Growers looks forward to working with all of our customers to make 2006 another excellent year in horticulture.

## Phormium Cultivars

New Zealand Flax are large strap-leaved evergreen perennials in the genus Phormium. Phormium has two species. Phormium tenax, the Coastal Flax, is the larger and more common plant in cultivation; its long strap leaves in shades of green, bronze and maroon are a familiar sight to gardeners in California. The Mountain Flax, Phormium cookianum (P. colensoi), is a smaller, more graceful plant that has been gaining popularity in California. Both of these plants are useful and attractive in the right situation, but the real gems are the colorful cultivars.

### Cultural Notes

Cultural practices for the flax hybrids are similar to those for the species with a few exceptions. As a general rule the hybrid flax are not as durable as Phormium tenax and are usually less tolerant to extremely hot or cold temperatures, prolonged dry conditions and heavy soil. Sunburn is more likely on the cultivars that have the graceful weeping leaves; cold temperatures below 20° F are likely to scorch the leaves of these plants as well. In hot inland valleys it would be wise to use these cultivars in bright shade where there is protection from the sun. The upright growing cultivars are affected less by these temperature extremes and most can tolerate direct sun. Although we have found the hybrids to be nearly as drought resistant as Phormium tenax, they look much better with occasional irrigation. There is a tendency for the slower growing hybrids to languish in poor heavy soil. If possible, position plants on a slope or mound when given this soil condition. Phormium plants suffer from few other maladies. Occasional mealybug attacks need to be controlled through sprays, and snails that often use the underside of the leaves for an abode, can be easily picked off or treated.

### Size

Determining the ultimate size of the new cultivars of New Zealand flax is an issue that we have been dealing with since we first started growing these plants. We have continuously updated our size data as our experiences and observations dictated but, in general, have found that these plants all get much larger than we originally expected and we are now suspicious of the listed heights of any new cultivar we receive, especially if we are told it will remain under 3 feet tall - it will no doubt get larger!

### Color Stability

The most serious complaint we have on the hybrid flax is the tendency of the colorful leaf forms to revert back to a green or bronze color. When a shoot of an unwanted color is seen on a hybrid plant, this shoot should be cut off at the base. With some of the hybrids it is the new foliage that is the showiest, and it is often best to remove all of the older leaves as the new ones emerge. Some gardeners in New Zealand feel that an occasional feeding with phosphorus fertilizer helps keep colors vibrant and we have also found this beneficial. In the individual listings that follow we have indicated the color forms that are least likely to revert by noting them as "Stable". If diligence is used, even the plants most likely to revert can be kept to their original color. It should be noted that not all of the shoots with a different color than the original plant are detrimental; Phormium 'Cream Delight', one of the showiest of all of the cultivars, was a vegetative sport from Phormium 'Tricolor'.

### Flowering

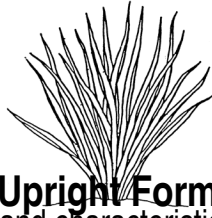

New Zealand Flax are rarely grown for their flowers, as it is the colorful foliage or striking form that is of primary interest, however the flowers are not only showy but also attract nectar seeking birds. Not all Phormium cultivars bloom regularly but many will flower in the garden in late spring or early summer. The flowers on Phormium tenax and many of the hybrids are orange-red and held upright on a tall stalk above the foliage. Phormium cookianum, and the hybrids more closely aligned with it, have greenish-yellow flowers that are held horizontally on an arching flower stalk. The fruit that follows is also quite different: P. tenax has its woody bean-like fruit held upright and P. cookianum has twisted dangling fruit. The flowers and dried fruit of both types are useful in large flower arrangements.

**Arching Form**

**Upright Form**

**Slightly Arching Form**

Name	Height	Leaf color and characteristics
'Apricot Queen'	3-4 ft.	Slightly arching and twisting 1 ½-2" wide pale yellow leaves with green margins flush an apricot color in fall. <b>Stable</b>
'Bronze Baby'	4-6 ft.	Upright 1 ½" wide dark reddish-brown foliage curves gracefully at tips. A good medium sized red flax. <b>Stable</b>
<b>Phormium cookianum</b> (P. colensoi)	4-5 ft.	Medium sized plant with 2 ½" wide olive-green leaves that arch gracefully. Parent to many of the hybrids. Grows well in shade. <b>Stable</b>
<b>P. cookianum</b> 'Cream Delight'	3 ft.	Broad plant with bold 2 ½" wide arching leaves with cream-yellow midstripe and green margins edged with red. <b>Stable</b>
<b>P. cookianum</b> 'Tricolor'	4 ft.	Similar to 'Cream Delight'. Wide leaves have a broad central green band surrounded by yellow stripes and red margins. <b>Stable</b>
'Dark Delight'	3-4 ft.	Slightly arching plant with dark reddish brown 1 ½ -2" wide leaves. One of the darkest flax hybrid readily available in the U.S. <b>Stable</b>
'Dark Delight' (Seedlings)	3-4ft.?	These seedlings are very uniform and about as dark as the parent plants Seed collected from plants in our nursery garden. <b>Stable</b>
'Dazzler'	3 ft.	Slightly arching 1 ½-2" wide leaves striped with deep maroon and scarlet. Reddest of the flax. Regularly apply Phosphorous to maintain red color.
'Duet'	2 ft.	Rigidly upright small flax w/ 1½" wide green leaves that have cream colored margins. Regularly produces green flowers on short inflorescence. <b>Stable</b>
'Dusky Chief'	3-4 ft.	Upright 1 ½" wide maroon red foliage curves gracefully at tips. A very nice medium sized red flax. Similar to 'Bronze Baby' but redder. <b>Stable</b>
'Ed Carman'	2-3 ft.	Upright 1 ½" bronze foliage w/pink, turning white margins. A great small flax from Bob Hornback - named for the famed Bay area nurseryman. Looks to be stable.
'Evening Glow'	4-5 ft.	Slightly arching 1 ½" wide apricot-pink to rose-red foliage with darker margins. A very attractive cultivar from Margaret Jones. Looks to be stable.
'Firebird'	5-6 ft.	Upright plant with stiff 2-2 ½" wide rose-red leaves with bronze-green margins. Red tones fade to a bronze-orange in summer. <b>Stable</b>
'Flamingo'	2-3 ft.	Arching 1 ½ -2" wide leaves in shades of orange, rose, light green & yellow. Looks Like a slightly smaller version of 'Maori Sunrise'.
'Guard sman'	6-7 ft.	Upright growing with a 2-2 ½" wide bronze-maroon leaves with scarlet margins. One of the best upright variegated red flax. <b>Stable</b>
'Jack Spratt'	1.5 ft.	Small upright plant with narrow 1/2" wide twisting reddish-brown leaves. Our smallest flax. Great for mass plantings. <b>Stable</b>
'Jester'	2 ft.	Upright slightly arching w/ 1 ½-2" leaves with a broad pinkish orange midrib & lime green edges. A very beautiful flax when reversions are culled.
'Maori Chief'	5-6 ft.	Robust upright plant with 2 ½" wide green centered rose-red margined leaves which arch at the tips. One of the best of the red variegated flax. <b>Stable</b>

Name	Height	Leaf color and characteristics
'Maori Maiden'	2-3 ft.	Medium sized plant with arching 1 ½-2" wide apricot to rose-red colored leaves w/thin green margins. One of the most beautiful flax when reversions are culled.
'Maori Queen'	4-5 ft.	Upright plant with 2-2 ½" wide olive-green leaves edged rose-red. Edges fade to a cream color. Cut out old foliage as it fades.
'Monrovia Red' [Atropurpureum Compacta]	2-3 ft.	Arching plant with 1½' wide leaves of solid deep maroon-red. A vegetative sport of 'Dazzler' with great color and form. <b>Stable</b>
'Pink Stripe'	5-6 ft.	Upright plant w/ broad 2 ½-3" bronze-green (almost gray) leaves edged w/ pink. A nice cultivar although bright color fades with age.
'Platt's Black'	2-4 ft.	Slightly arching plant with 1½' wide leaves of dark blackish maroon foliage. One of the darkest and slowest growing of the flaxes. <b>Stable</b>
'Radiance' [Williamsii Variegata]	5-6 ft.	Upright plant with 2-2 ½ leaves w/thin green & gold bands. A cultivar with bold showy foliage that has withstood the test of time in California gardens. <b>Stable</b>
'Red-Dark Green'	4-5 ft.	From the new Lancer Series with broad green leaves with a red variegation. Looks similar to 'Maori Queen'. An attractive plant when reversions are culled.
'Rubrum'	2 ft.	Small slightly arching plant with narrow maroon foliage. A newer cultivar from South Africa that has remained smaller than other red flax. <b>Stable</b>
'Sea Jade'	4-5 ft.	Upright plant with blunt tipped 2 ½" wide rich green leaves that have a strong maroon to bronze midrib stripe. Unusual and attractive. <b>Stable</b>
'Sundowner'	6-8+ ft.	Upright large plant with 2 ½ - 3" wide bronze-green leaves w/rose-pink margins fading to cream in summer. New foliage is always stunning! +/- <b>Stable</b>
'Sunset'	5-6 ft.	Upright long 1 1/2" wide leaves arch at the tips in apricot to pink tones blending with green. An very attractive plant when reversions are culled.
'Surfer'	3-4ft	Upright with unusual twisted narrow leaves that are brown with yellow-green central stripe on top with a yellow-green backside. <b>Stable</b>
P. tenax 'Atropurpureum'	8+ ft.	Large upright reddish-purple form of the species. A seedling plant with some variability. Very tough!
P. tenax 'Variegatum'	8+ ft.	Large upright plant with green and cream bands running lengthwise on broad 3" wide leaves. <b>Stable</b>
'Terracotta'	3-ft.	Arching 1 ½" wide green leaves have broad streaks of rose pink and apricot. This newer flax in the Lancer series grows to only gets 3' tall. Seems fairly stable.
'Tiny Tiger'	1 ft.	Small upright plant with 1" wide gray-green leaves with cream margins that flush pink in winter. Our smallest variegated flax. <b>Stable</b>
'Tom Thumb'	2 ft.	Small upright plant with undulating 1/2" wide green leaves with red bronze margins. Our smallest green flax. <b>Stable</b>
'Tony Tiger'	2-3 ft.	Small upright plant with 1" wide gray-green leaves with cream margins that flush pink in winter. A sport of 'Tiny Tiger' from Bob Hornback <b>Stable</b>
'Wildwood'	4-6 ft.	Medium sized slightly arching plant w/2½" wide luxurious dark purple lvs. Known in Bay area gardening circles as 'Purpureum'. An outrageously beautiful flax. <b>Stable</b>
'Wings of Gold'	3-4 ft.	Wide plant w/arching 1 ½ -2" wide green leaves w/cream colored margins A newer plant from South Africa that is very similar to a small P. tenax 'Variegata'. <b>Stable</b>
'Yellow Wave'	3-4 ft.	Wide plant with arching 2" wide green leaves with a central yellow band that fades to green in fall. Sometimes gets leaf spotting. <b>Stable</b>

## Bamboo

Bamboo is a diverse group of plants with over 1,200 species ranging in size from miniatures to towering giants. It provides food, medicine, timber for construction, the thatch for roofs and basketry and beauty for the garden. Planting bamboo brings with it responsibilities and garden chores. One should remember that bamboo can grow rapidly and many spread by underground rhizomes. Barriers for rhizomes are best installed prior to planting. It is also the bamboo gardener's responsibility not to allow their plants to recklessly wander into neighboring yards. Not much care is required to maintain bamboo plants but they can create dense clumps that look better when thinned occasionally. Have patience, as bamboo grow quickly only after they have established their root system, which may take several years. The spread and growth rate of bamboo is proportional to irrigation and fertilizer applications; faster growth is attained with frequent watering and application of a high nitrogen fertilizer. For more information, check our bamboo pages at [www.smgrowers.com/info/bamboo.asp](http://www.smgrowers.com/info/bamboo.asp).

### We grow the following varieties of Bamboo:

**Bambusa beecheyana** - Beechey Bamboo - Clumping bamboo to 50 feet with 5 inch wide arching culms that are apricot color when first emerging and covered with white powder. Full sun. Hardy to 15° F. Edible shoots. A big beauty from China.

**Bambusa multiplex 'Alphonse Karr'** [B. glaucescens 'Alphonse Karrii'] - Clumping bamboo with green striped bright yellow culms to 25 feet tall by 1 ½ inch wide. New culms have pink cast. Full sun to light shade. Hardy to 12° F.

**Bambusa multiplex 'Golden Goddess'** [B. glaucescens 'Golden Goddess'] - A smaller clumping Bamboo with thin green culms to 6-10 feet tall by ½ inch wide. Sun/light shade. Hardy to 12° F. A nice container bamboo.

**Bambusa multiplex 'Riviereorum'** - Chinese Goddess Bamboo. A Fine textured small clumping bamboo to 6 feet tall with ¼ inch culms. Sun/light shade. Medium water needs. Hardy to 12° F or less. A great container bamboo.

**Bambusa oldhamii** - Giant Timber Bamboo - Clumping bamboo to 55 feet tall with 4 inch wide straight vertical culms and short side branches. Full sun. Hardy to 15° F. Great bamboo for a tall screen. From Taiwan.

**Bambusa textilis** - Weaver's Bamboo - Tight clumping bamboo to 40 feet tall with 2 inch wide pale green culms that arch gracefully. Full sun. Moderate water needs. Hardy to 13° F. Thin walled culms useful for weaving. From Southeast China.

**Bambusa vulgaris 'Vittata'** [B. vulgaris 'Striata'] - Painted Bamboo - Clumping bamboo to 30-50 feet with 4 inch wide golden culms striped with green (like drip marks) that arch over toward tips. Full sun. Hardy to 27° F.

**Chusquea coronalis** - Mexican Climbing Bamboo - Clumping bamboo to 15 feet tall w/ arching ¾ inch solid culms encircled w/tiny leaves. Full sun/light shade. Hardy to 25°F. From southern Mexico to Costa Rica. Probably the most beautiful bamboo.

**Dendrocalamus asper** - Giant Burmese Timber Bamboo - Large clumping bamboo to 60+(100) feet tall with 8 inch culms and large leaves. Full sun. Hardy to 23° F (root hardy to 10°). Large shoots are of high food quality. From Burma & Java.

**Hibanobambusa tranquilans 'Shiroshima'** - Slender stemmed running bamboo to 10-15 feet tall w/4-6 inch long green & white striped leaves on 1 ¼" culms. Hybrid between Sasa veitchii & Phyllostachys nigra 'Henon'. Part sun. Hardy below 0° F.

**Himalayacalamus falconeri 'Damarapa'** [Drepanostachyum hookerianum] - Candy-Stripe Bamboo - Clumping bamboo to 20-30 feet tall w/ 2 inch wide green, striped w/yellow culms that blush pink in spring. Cool sun/light shade. Hardy to 15°F

**Himalayacalamus hookerianus 'Baby Blue'** - Dwarf Himalayan Blue Bamboo - Clumping bamboo to 5-7 feet tall with up to ½" culms with blue dusting and dark green leaves. Part sun/ light shade. Hardy to 15° F. A small form of Blue Bamboo.

**Himalayacalamus hookerianus 'Teague's Blue'** - Himalayan Blue Bamboo - Clumping bamboo to 20-30 feet tall with up to 2" culms with blue dusting and dark green leaves. Part sun/ light shade. Hardy to 15° F. Very Beautiful.

**Oatea acuminata aztecorum** [Yushania] - Mexican Weeping Bamboo - Open clumping bamboo to 20 feet tall w/arching 1 ½ inch culms & abundant narrow leaves. Full sun/light shade. Hardy to 22° F. Native to much of Mexico.

**Phyllostachys bambusoides 'Castillon'** - Striped Running Timber Bamboo - A beautiful running bamboo 35 feet tall w/ 2 inch wide golden culms that are vertically green banded in the grooves on alternate culms. Full Sun. Hardy to 5° F.

**Phyllostachys edulis** [P. heterocyla pubescens] - Moso Bamboo - Large running bamboo to 75 feet tall w/7 inch wide velvety haired culms that mature a dull green. Hardy to 0° F. Full Sun. Used for timber and food in China. Slow to establish.

**Phyllostachys nigra** - Black Bamboo - A running bamboo to 20-30 feet tall with 1-2 inch wide jet black culms (culms mature from green to black in 6-12 months). Part sun/ light shade. Hardy to 0° F. From China.

**Pleiblastus pygmaeus** [Sasa pygmaea] - Dwarf Bamboo - Running bamboo to 1-2 feet tall w/ narrow culms bearing small leaves with hairy undersides (distinguishes it from P. distichus). Sun/Light Shade. Hardy to 10° F. Can be invasive.

**Pleiblastus shibuyanensis 'Tsuboi'** - Vigorous dwarf running bamboo to 2 feet tall with dark leaves that have a white variegation. Full sun (coast) to light shade. Hardy to 0° F. ABS says this "dwarf" gets to 9 feet tall but it stays small for us.

**Pleiblastus viridistriatus** [Arundinaria viridi-striata] - Running bamboo to 2-3 feet tall w/yellow chartreuse foliage. Sun/Light Shade. Cut regularly to encourage new growth. Hardy to 0° From Japan.

## New Plants Program

San Marcos Growers has a history of new plant introductions. The following organizations have been responsible for many of these new plants. For more information and for a listing of other partners that have been instrumental with our new plant introduction program please visit our New Plant pages on our website at [www.smgrowers.com/info/plantintroductions.asp](http://www.smgrowers.com/info/plantintroductions.asp).

### Koala Blooms

We are proud partners of the UC Santa Cruz Arboretum Koala Blooms Australian Plant Introduction Program. We grow the following plants introduced by this program:

Banksia spinulosa 'Schnapper Point'  
Boronia megastigma 'Jack Maguire's Red'  
Boronia clavata 'Heather Wand'  
Boronia crenulata 'Rosy Splendor'  
Brachysema praemorsum 'Bronze Butterfly'  
Callistemon 'Cane's Hybrid'  
Chorizema 'Bush Flame'  
Correa alba var. pannosa 'Western Pink Star'  
Correa pulchella 'Pink Eyre'  
Correa pulchella 'Pink Flamingo'  
Correa 'Ray's Tangerine'  
Correa reflexa 'Cape Carpet'  
Correa reflexa 'Carpenter Rocks'  
Diplolaena angustifolia 'Orange Urchin'  
Diplolaena dampieri  
Grevillea lanigera 'Coastal Gem'  
Isopogon anethifolius 'Curra Moors'  
Nematolepis frondosa 'Elizabeth'  
Pandorea pandorana 'Golden Showers'  
Philothea verrucosa 'Starbright'  
Prostanthera 'Poorinda Bride'  
Tetraloena ericifolia 'Heathland Gem'  
Verticordia plumosa

### Santa Barbara Botanic Gardens

The Santa Barbara Botanic Garden has introduced many great plants. We are pleased to be able to offer many of these plant introductions and to support the Santa Barbara Botanic Garden in its efforts to promote the sensible use of California native plants. We grow the following plants introduced by this program:

Aristida purpurea 'Chino Hills'  
Artemisia californica 'Canyon Gray'  
Ceanothus 'Wheeler Canyon'  
Eriophyllum nevinii 'Canyon Silver'  
Fremontodendron 'Dara's Gold'  
Heuchera 'Canyon Belle'  
Heuchera 'Canyon Duet'  
Heuchera 'Canyon Melody'  
Heuchera 'Canyon Pink'  
Hyptis emoryi 'Silver Lining'  
Iris PCH hybrid 'Canyon Snow'  
Leymus condensatus 'Canyon Prince'  
Salvia brandegei 'Pacific Blue'  
Sphaeralcea fulva 'La Luna'  
Verbena lilacina 'De La Mina'

## New Plants Listed In Our 2006 Catalog

The following plants have been added to our 2006 catalog. Please visit [www.smgrowers.com](http://www.smgrowers.com) for more information on these plants.

Abelia x grandiflora 'Kaleidoscope'	Begonia 'Irene Tapia'	Echeveria 'Blue Bedder'	Nepeta racemosa 'Little Titch'
Acacia merinthophora	Berberis 'Golden Abundance'	Echeveria lilacina	Parthenocissus 'Hacienda Creeper'
Aeonium 'Blushing Beauty'	Beschorneria 'Ding Dong'	Echinodorus 'Marble Queen'	Pelargonium sidoides 'Gloriana'
Aeonium 'Cyclops'	Brachyglottis 'Silver Dormouse'	Echium 'San Bruno Pink'	Pentas lanceolata 'Venus'
Aeonium 'Purple Queen'	Brighamia insignis 'Kirsten'	Echium candicans 'Starburst'	Pereskia 'Pink Rose'
Agave desertii	Calothamnus villosus	Eucomis comosa 'Rubrum'	Phormium 'Evening Glow'
Agave desmettiana 'Variegata'	Canarina canariensis	Euphorbia 'Helena'	Phormium 'Tiny Tiger'
Agave 'Felipe Otero' (FO-076)	Cannomois virgata	Euphorbia polychroma 'Bonfire'	Phormium 'Tony Tiger'
Agave gentryi 'Jaws'	Ceanothus 'Cynthia Postan'	Farugium 'Crested Leopard'	Plectranthus 'Blue Yonder'
Agave guadalajarana	Ceanothus 'Diamond Heights'	Furcraea selloa var marginata	Plectranthus ernestii
Agave macroacantha	Ceanothus Silver Surprise	Graptoveria 'Fred Ives'	Podocarpus henkelii
Agave 'Mr. Ripple'	Chamaelucium 'My Sweet Sixteen'	Grevillea 'Moonlight'	Pogonatherum paniceum
Agave pot. 'Kichiokan Marginata'	Chamaelucium 'Stirling Range'	Hippeastrum x johnsonii	Protea cynaroides
Agave shawii	Cistanthe 'Jazz Time'	Hippuris vulgaris	Rosa Carefree Marvel
Agonis 'Jervis Bay Afterdark'	Clivia miniata 'Arturo's Yellow'	Hygrophila difformis	Russelia 'Flamingo Park'
Allium unifolium	Colocasia 'Chicago Harlequin'	Hymenocallis traubii	Ruttyruspolia 'Phyllis Van Heerden'
Aloe 'Blue Elf'	Combretum fruticosum	Hymenocallis 'Tropical Giant'	Salvia madrensis 'Red Neck Girl'
Aloe comosa	Convolvulus 'Moroccan Beauty'	Impatiens sodenii 'Madonna'	Sansevieria parva
Aloe ferox	Coprosma 'Evening Glow'	Isopogon 'Curra Moors'	Schotia afra var. angustifolia
Aloe kedongensis	Coprosma 'Rainbow Surprise'	Kniphofia northiae	Senecio talinoides 'Jolly Gray'
Aloe marlothii	Coprosma 'Roy's Red'	Kniphofia rooperi	Setaria palmifolia var. rubra
Aloe rubroviolacea	Correa reflexa 'Cape Carpet'	Lamium mac. 'Pink Chablis'	Stomatium agninum
Aloe striata ssp. karasbergensis	Correa 'Wyn's Wonder'	Lapageria rosea	Sutera cordata Giant Snowflake
Aloe tomentosa	Crassula ovata 'Olbliqua'	Lavandula stoechas 'Kew Red'	Sutera diffusa Cabana Blue
Aloe vanbalenii	Cyperus papyrus 'King Tut'	Lavandula stoechas Passionne	Tillandsia secunda
Aloe vaombe	Dianella ensifolia	Lavandula stoecc. 'Snow Bunny'	Trachycarpus wagnerianus
Alstroemeria Inca Ice	Diplolaena ang. 'Orange Urchin'	Loropetalum 'Purple Majesty'	Tradescantia spathacea 'Tricolor'
Anigozanthos 'Bush Games'	Diplolaena dampieri	Macropidia fuliginosa	Trichodesma scottii
Anisodonteia 'Elegant Lady'	Dudleya 'Baja'	x Mangave 'Macho Mocha'	Uncarina grandidieri
Aspidistra elatior 'Ginga Minor'	Dudleya hassei	Mimulus 'Trish'	Veltheimia capensis
Aster ericoides 'Blue Star'	Duranta erecta 'Golden Edge'	Nandina 'Gulf Stream'	Yucca aloifolia 'Marginata'
Azorina vidalii	Dyckia 'Cactus Ranch Red'	Nandina Harbor Belle	Yucca elephantipes 'Variegata'
Begonia 'Freddie'	Echeveria 'Afterglow'	Nemesia 'Refined Innocence'	Zantedeschia 'Solar Flare'

### Garden Maker Concrete Planters

San Marcos Growers manufactures Garden Maker Concrete Planters. Pots are cast in a natural concrete color. The cement is stabilized, making them ideal for water garden use. A water feature using these planters is set up in the nursery and there are many of these pots planted with our plants situated throughout the nursery gardens. Photos of these pots are available on our website at [www.smgrowers.com/products/gardenmakerpot.asp](http://www.smgrowers.com/products/gardenmakerpot.asp).

## Terms and Conditions

### Terms

All orders will be C.O.D. upon delivery unless a prior account has been established. We do accept Visa and MasterCard. Credit is available to established businesses based on the following terms:

- 1) All accounts are due and payable 30 days after the date of invoice.
- 2) Overdue accounts will be subject to a service charge of 1.5% per month or 18% per annum.
- 3) San Marcos Growers retains the right to deny further credit on overdue accounts.

### Conditions

This price list cancels all previous editions and quotations and is intended for the trade only. All prices are quoted F.O.B. our nursery. Prices are subject to change without notice.

### Non-Warranty

San Marcos Growers will exercise care to have all merchandise true to name, and makes no further warranty, expressed or implied, as to the variety or productivity of any nursery stock sold. Under no circumstances will San Marcos Growers be held liable for more than the invoice price at the time of purchase. No liability is assumed by the Seller for the delay or failure to deliver as a result of conditions and all instances beyond control. If the Buyer does not accept the goods on these terms, they are to be returned to the Seller immediately.

### Hold Orders

Orders for future delivery or pick up will be held and guaranteed for no longer than 2 weeks.

### Claims

All claims for any reason must be made immediately upon the receipt of goods. If an error has been made, please notify us promptly and we will make an adjustment. We do not guarantee the longevity of plants and will only accept returned goods for full credit when notified within 5 days after delivery.

### Returned Stock

Accepted nursery stock returned within 30 days of invoice or shipping date will be subject to a **20% restocking fee**. No return nursery stock will be accepted after 30 days. Plants removed from their pots or otherwise planted will not be accepted for return. All requests for San Marcos Growers to pick up plants must be authorized by a San Marcos Growers Sales Representative. Information needed for a pick up order to be issued includes the invoice number, the quantity, type and size of the plant material to be picked up and the reason the plants are to be returned. The drivers will not pick up plants without prior authorization.

### Certified Nursery

San Marcos Growers is certified and inspected by the California Department of Agriculture. Our California Nursery Stock Certificate number is **D-6799**. This assures that plant material is free from injurious plant pests and disease symptoms and may be released for shipping and planting in California without further inspection unless order is blue-tagged. San Marcos Growers is in compliance with California Department of Agriculture and blue tags orders containing Glassy-winged Sharpshooter hosts. Our compliance number is **GWSS-42004**. All blue tag orders must be inspected by your county agricultural department upon delivery. Please consult your agricultural department officials for local restrictions. Recent regulations have been enacted by the USDA to prevent the spread of the Sudden Oak Death (SOD) pathogen *Phytophthora ramorum*. San Marcos Growers is inspected regularly by our local Agricultural Commissioner's office and we have never had this pathogen found on our property. We are authorized to ship plant material interstate certified under APHIS 7CFRxxx.xx with the California compliance number: **42D6799001**.

### Deliveries

Regular deliveries are scheduled along the north/south coast from San Diego to southern Sonoma County. Please consult the chart on the next page regarding shipping rates for your area. Drivers are instructed to deliver plant material only as far as they can safely drive the delivery truck and to place plants no further than 15 feet away from the truck. San Marcos Growers will give an estimated time of arrival (ETA) for deliveries but they are, as implied, only estimates and we will not be held responsible for any costs incurred by receiver for orders that are not delivered at the time that has been estimated. On deliveries where boxed trees or cement pots are to be delivered, on-site help will be required to help remove these items from the truck. Prices in this catalog for 36 inch boxes are F.O.B. - if delivered they are subject to an additional delivery fee surcharge. The delivery of 36 inch box trees will require that a fork lift or tractor be present at the delivery site.

### Truck Size Limitations

We use tractor trailer rigs for most of our out of town deliveries. They are 13½ ft tall by 45 ft long with 3 axles and they are heavy. Our drivers are instructed to use their best judgment about whether or not a delivery can be made. Please let us know if there are any potential difficulties for our delivery trucks at the delivery site.
